## The Cat Stevens Experience

Performed by Dale Ryder

Cat Stevens was unveiled to the world in the 1960s with his mellow voice and intimate, thought provoking songs. His wonderful signature sound created phenomenal success, selling in excess of 60 million albums worldwide.

With anthems including First Cut is the Deepest, Morning Has Broken, Moon Shadow and the magical Peace Train, Cat Stevens established himself as a true musical talent.

Today, one of Cat Stevens' biggest fans and an amazing talent in his own right, Dale Ryder, is paying tribute to this great artist.

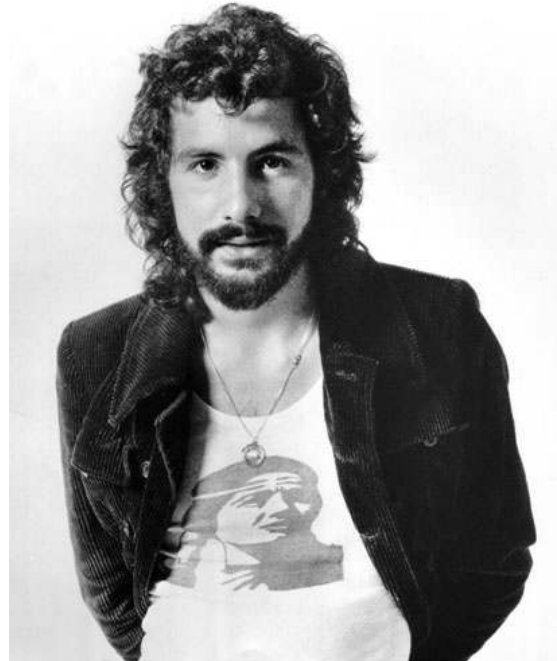

After more than a decade fronting hugely successful band Boom Crash Opera, Dale Ryder spread his wings and took on the role of Dr Frankfurter in the official production of the Rocky Horror Picture Show in Australia and Hong Kong, winning rave reviews for his performance. More recently, Dale Ryder fronted Orchestra Victoria Rock Queen, a Queen rock show with the Victorian Symphony Orchestra.

Dale Ryder has now come together with an eight piece band to create a Cat Stevens experience to be remembered.

Setting the mood perfectly with burning incense and candles on stage, this show takes the audience back to an era when the world was a better place.

Peace Train is the ultimate musical journey of Cat Stevens' greatest hits and a long road of memories.
